

LISBOA CAPARICA MAR

OWN THE CITY

Lisbon, 18th July,

To whom it may concern :

There were some news on the media about the closure of Lisbon Caparica beaches during this August over the last few days.

However this will have a minimal to no impact on Caparica beaches, which are over 13km long and according to the latest information by the Lisbon harbor Captain, this will be done (*date still to be confirmed in August*) over a piece of 100 meters of beach, at a time, during 3 days, then they will move to the next 100 meters.

This means that only 100 meters of beach will be closed down at all times during these works – and only have an impact of 3 days for that stretch of sand.

In regards of TRYP Lisboa Caparica Mar beach, the impact will be minimal – when the 100 meters in front of the Hotel will be under maintenance, guest will only have to walk 8 to 10 meters to the side, to access the rest of the beach which will be open.
